MONDAY, OCTOBER 17.

DELEGATE PEREA.

OF BERNALILLO.

Delegate Ferguson is playing a game of wile-waggle on the question of protection to American industries. Anything for re-election.

The babies of the land can breathe easier again. The mothers' convention at Omaha has adjourned without deciding upon any radical changes in caring for the little ones.

Hon. Pedro Perea is gaining strength and friends every day. A few more scurrilous attacks upon his private life and public acts will insure him a majority far beyond the most sanguine expectations of his friends.

The San Marcial Bee is making a most gallant and telling fight for party principles and for party success. It supports the entire Republican ticket of its county and the nominee for delegate in first class shape. That is the way to do it.

All indications point to the fact that the Republicans will have a good working majority in the Fifty-sixth congress. New Mexico ought to be in accord with the majority of that body by electing Hon. Pedro Perea as its delegate.

The Republicans of Eddy county have put some strong men in the field. The county heretofore has been overwhelmingly Democratic. From the best advice obtainable it is believed that the Republicans will make gains this election. This, if done, would be a good thing for Eddy county and for the territory. A progressive, live county like Eddy cannot afford to be boxed up with Democratic bournism, backwardness and fossilism.

The San Miguel county bank of corrupt officials is feeling the halter draw, and hence endeavors to curry favor with Judge Mills. This game will not work with a man like the chief justice. The law will be upheld and enforced, never fear. And if, perchance, there should be a district attorney who will not do his duty as the law, his oath of office and the best interests of the people require him to, why then he will be stirred up in such a manner as to bring about the desired state of affairs.

Cheering news for the Republicans of New Mexico continues to come from every section of the territory. The Democrats, in their supposition that the voters had forgotten business conditions as they obtained under a Democratic free trade administration, made a serious mistake, as they will learn to their cost when the votes are counted. The difference between 65 cent and 42 cents, 45 and 18 cents is too great to be forgotten in two short years, and the people well know that it has been the policy of protection as placed in practical operation by the Republican party that has caused that difference.

The Democratic campaign managers, bosses and papers, having started the cry of race against race, Hon. Pedro Perea, Republican candidate for delegate to congress, are now becoming scared. They think they have overdone the thing. They thought that passing a resolution soft-soaping the native born citizens of New Mexico, at their convention, and then secretly using the race issue against the Republican candidate for congress would do them lots of good. They were caught at this game however, and now they want to crawl out of it by charging the Republicans with having raised the issue. The voters will choose! It is but three weeks to election day.

The newspapers in this country that were so industrious in stirring up a scandal in connection with the conduct of the war, are real mad over the testimony which has so far been given before the commission appointed to investigate the charges against the War department. They claim that the commissioners have been very careful to examine only those witnesses who would not dare testify to the truth. That is rather a serious charge to make against some of the most respected and best known officers connected with the Cuban campaign, and one which will not be permitted to go unchallenged. The yellow fellows in the ranks of the newspaper profession are in a position to receive an investigation at the hands of an indignant public, and that will not be so funny as seeing some one else investigated.

Treaty of Peace and Congress.

With the approach of the time for congress to assemble, the members of that body are losing their reticence regarding the terms upon which peace should be concluded between the United States and Spain, and the expressions made by congressmen and senators would indicate that unless the peace commissioners at Paris provide for permanent possession of the entire Philippine archipelago, refuse to assume any part of the Cuban or Philippine debt, and insist upon the relinquishment of all authority by Spain on the other islands which have fallen into the hands of the United States as a result of the war, the treaty will be refused, and the work done by the commissioners will be for naught.

The senators and congressmen have been among their constituents the greater part of the summer and fall and have learned the wishes of a majority of the citizens, and unless the peace treaty complies with the demands made in every section of the country there will be a warm time in congress when it is presented for ratification. Much has been said and written concerning what should be done with the Philippines, but it is useless to attempt to ignore the real feeling in the country. The people of the United States have made up their minds that the government is bound by a sacred duty to provide for the future of the islands in a manner which will forever preclude the return of Spanish authority, the possibility of complications arising with other nations over the question, and which will insure a safe and stable government for the inhabitants. The members of congress have been at their homes long enough to fully realize the situation, and while the powers that be may desire to wash their hands of all responsibility for the future state of the islands, in the end the will of the people will prevail. Congressmen and senators are shrewd enough to understand that to thwart a well defined policy adopted by their constituents is to court retirement to the walks of private life, and to escape that fate the treaty will have to be ratified.

The members of the peace commission sent from this country are not wanting in knowledge of the situation, and it is strongly suspected in some quarters that the delay in arriving at an understanding at the meetings of the commission is caused by the fact that the American commissioners are so busy holding their ears to the ground to catch the latest rumble of public sentiment that other matters are unavoidably crowded aside.

The proposition made by Spain that all matters of difference between the two governments regarding the assumption of debts by the United States and the Philippine islands be submitted to arbitration, will receive little attention. There is nothing to arbitrate. If Spain does not care to accede to the demands of this country there is but one thing she can do, and that is to open the war again. The time for arbitration passed when the Maine was blown up at Havana, and subsequent events placed the United States in a position to make demands and to stick to them.

The American members of the peace commission no doubt are kept informed as to the development of sentiment in this country and will endeavor to arrange to meet all requirements and avoid trouble when congress assembles.

Another Phase of It.

People who are apprehensive of war between Germany and the United States should bear in mind that Germany will be especially slow to enter into such a conflict for cold-blooded financial reasons. Not only is Germany dependent in a marked degree upon the United States for food products and certain lines of manufactured goods, but its principal cities are filled with American students of music, sciences, theology, belle lettres and the fine arts. At all of the noted German universities are many American students pursuing regular and special courses, noticeably at Berlin, Bonn, Heidelberg, Leipzig, Strasburg, Freiburg, Munich, Dresden and other places, while the Americans studying music and the fine arts in the above cities are getting to be almost without number. With the first real suggestion of hostilities, this vast student crowd will be up and moving homeward with the wings of the wind, and then Rachael mourning for her lost ones would not be the chirp of a titmouse compared with the wild lament and cries of indignation arising in vocal cyclone in the 16th ledger line above the treble staff from thousands of boarding house and restaurant keepers throughout the empire, whose daily bread is thus being ruthlessly swept away. These frantic people would swarm around the war office like angry hornets and make Rome howl until every official in that department, including the minister of war himself, were forced to flee for the safety of their hair, if not of their lives, until a cordon of troops could be drawn up around the building, and the invaders driven off at the point of the bayonet.

The loss of these students means the loss of hundreds of thousands of dollars to honest German folk who are by no means in sympathy with the hot heads endeavoring to stir up strife between Mr. William Hohenzollern and Uncle Sam, and whose living is dependent upon boarders from America. And then there are the teachers of music, painting, etc., whose purses would flatten out to note paper thinness with the loss of American patronage; and with these worthless joining in the hue and cry against the German war department there would indeed result confusion calculated to make angels weep and the stars in heaven hide their light in sympathetic grief. The Kaiser and his minister of war will do well to steer clear of war with America, unless they first take the precaution to shave their heads and surround themselves with two or three regiments of troops wherever they go. The boarding house and restaurant people and the corps of German professors are in general amably inclined, but with the loss of their

American patronage they would turn the whole empire into confusion worse confounded and make the fur fly like water from a hydro-extractor.

DEMOCRATIC TERRITORIAL CONVENTION

Remarkable for a Light Attendance and Little Interest or Enthusiasm.

Speeches Savored of Anarchy and Sedition—Capitalists and Financiers Denounced—A Close Approach to a Display of the Red Flag.

Hon. J. E. Sheridan, editor of the Silver City Enterprise, and who was present at the recent Democratic convention at Deming, comments on that gathering as follows: "The Democratic territorial convention which was held at Deming, was a tame affair from the standpoint of respectable Democrats, but would make a passable showing for a convention of communists or anarchists. The attendance was a slim one, very few counties outside of Grant having a full representation. The blatant element that spouts sedition and anarchy was quite conspicuous in the assemblage, while the most conservative and respectable element was noted for its absence. Several of the speakers took occasion to denounce capitalists and financiers in general as robbers, every element of progress was deprecated and abused. Frequently the bluish of shame spread over the cheeks of the sprinkling of sensible Democrats present, at the anarchistic utterances of the speakers. Delegate Ferguson must have felt demeaned that he was the recognized leader of an element which voiced such sentiments in opposition to the progress and prosperity of the territory. While the territory is making frantic appeals for the introduction of capital to develop its wonderful resources, the blatherers of the Democratic party in this territory are inciting the worst passions of the worse classes in evil and vindictive opposition to all progressive methods, and making it appear that the people will accord neither justice nor protection to invested capital. Mr. Ferguson made a very neat speech in acceptance of the nomination, dwelling principally upon the silver issue. Had he succeeded in throttling the howling demagogues who went before, and enlightened the audience as to the dangers of Democracy, his chances of success in the coming campaign would have been greater."

Why We Should Elect Perea.

(Don Ana County Republican.)

The necessity for a Republican delegate to congress from this territory is so apparent and so thoroughly recognized by all classes that we are at a loss to understand why the Democrats should champion the field an opponent to the champion of the whole people of New Mexico. But since it has done so we believe that one reason should be pointed out why Mr. Ferguson should be defeated and Mr. Perea elected. This territory has suffered long enough the injustice of being kept out of the sisterhood of states, and being forced to accept less-far less, than one-third of the representation of which it is rightfully entitled. A delegate in congress is no more than a figurehead, and especially so when he is a member of the minority party.

New Mexico wants and demands admission to the sisterhood of states. It has the population—a population composed of the most intelligent, energetic, influential and wealthy citizens to be found in any state in the union. It has the resources that only need the magic touch of capital to bring about results that will surpass the fable of Aladdin's lamp, and which refuses to take hold of them on account of their lack of confidence in territories. Its people want representation in the United States senate, and a full-fledged congressman in the house of representatives.

The citizens of this territory want and demand the right to govern themselves and cease being a knot in the tail of Uncle Sam's political kite. It has become monotonous, and the yoke of thralldom has become too great a burden to be borne much longer by this territory without a vigorous protest. That the hour for successful consummation of our wish for admission as a state is near at hand is short-sighted as all; but no one is so short-sighted as to believe it can be brought about by a Democratic delegate. The next congress will be overwhelmingly Republican and if New Mexico elects Perea he will be recognized by the Republican congress and gain for New Mexico what she has long coveted—statehood.

It would be just as foolish for the people of this territory to send a Democrat to congress as it would be idiotic for a man who, wishing to secure a special favor from a neighbor, and being unable to represent himself in person chooses as his representative a bitter enemy of the man whose preferment he sought. He would be sat on as hard and often as Tom Reed squelched Ferguson.

Captain Llewellyn for the House.

(Silver City Enterprise.)

W. H. H. Llewellyn, candidate for the lower house of the legislature from the counties of Grant and Dona Ana, is well known throughout the county as speaker of the last house of representatives, and more recently as captain of a company of the famous Roosevelt Rough Riders. No mistake will be made in voting for Captain Llewellyn by the voters of Grant county, for he will fight your battles in the legislature as he fought for his country before Santiago de Cuba—and won.

Pedro Perea's Legislative Record.

(San Marcial Bee.)

Hon. Geo. Curry, one of the prominent Democrats of the territory, while a member of the upper house of the New Mexico legislature four years ago, publicly made the statement that Hon. Pedro Perea was the ablest legislator it had been his luck to meet in New Mexico. And at Washington he will be classed as the ablest representative New Mexico has ever had at the national capital.

Mr. Ferguson's Tactics.

(Socorro Chieftain.)

Mr. Ferguson is using the tactics adopted by Mr. Joseph, while he was delegate from New Mexico. Mr. Joseph always had a bill of great importance pending in congress that, if he was re-elected, he could get through.

The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure cancer, or any other blood disease. The cruelty of such treatment is illustrated in the result from it. The disease is in the blood, and hence cannot be cut out. Nine times out of ten the surgeon's knife only hastens death.

My son had a most malignant cancer, for which the doctors said an operation was the only hope. The operation was a severe one, as it was necessary to cut down to the jaw bone and scrape it. Before the cancer returned, and began to grow rapidly. We gave him many remedies without relief, and finally, upon the advice of a friend, decided to try S. S. S. (Swift's Specific), and with the second bottle he began to improve. After twenty bottles had been taken, the cancer disappeared entirely, and he was cured. The cure was a permanent one, for he is now seventeen years old, and has not had a sign of the dreadful disease to return.

J. N. MURDOCK, 270 Snodgrass St., Dallas, Texas.

Absolutely the only hope for Cancer is Swift's Specific.

S.S.S. For the Blood

as it is the only remedy which goes to the very bottom of the blood and forces out every trace of the disease. S. S. S. is composed purely of vegetable, and contains no potash, mercury, or other mineral.

Books on Cancer will be mailed free to any address by the Swift Specific Co., Atlanta, Ga.

So with Mr. Ferguson, he left a large amount of unfinished business behind, that, if re-elected, he will get through congress. This time it is a bill on mining of great importance. This continuing story chestnut is too stale entirely. What New Mexico needs is a delegate who is in harmony with the administration. To accomplish any good we must elect a Republican delegate to congress.

What a Vote for Pedro Perea Means.

(San Marcial Bee.)

A vote for Pedro Perea means a vote for statehood; a vote for Pedro Perea means a vote for an improved educational system; a vote for Pedro Perea means an endorsement of the party whose policy has given New Mexico higher prices for cattle, sheep, wool, etc.; a vote for Pedro Perea means individual and general prosperity for the people of this territory in a thousand and one ways never conceivable or possible under a democratic administration. It would be a suicidal act to vote for Mr. Ferguson at this particular time, and no sensible voter, be he Mexican or American, can afford to do it.

REPUBLICAN PLATFORM.

The Republican party of the territory of New Mexico, in convention assembled at Albuquerque on the 1st day of October, A. D. 1898, reaffirms its faith in the declaration of principles set forth in the national Republican platform of 1896; and it is with pride that we can again point to the fact that under a Republican administration public credit has been restored, industry revived, factories and workshops reopened and protection given to American interests, under which the people are enjoying renewed confidence and prosperity.

We most heartily endorse the Dingley tariff law, enacted by a Republican congress, as the best and wisest measure of the Democratic party. Under that law the sheep and wool and live stock interests have been greatly benefited, and the wealth of this territory benefited by many millions of dollars.

We believe in sound money, and in a volume of money sufficient for all business demands. The policy of the present administration in giving employment to labor, and protection to our various industries is a solution of the financial question. We are opposed to all financial heresies which call for cheap money, believing as we do that all money issued by the government should be of uniform and equal value.

We congratulate the country upon the great success of the present national administration, in which our president has distinguished himself as a statesman and a patriot in dealing with domestic and foreign affairs; and in which he has shown so much wisdom in upholding the honor of this nation.

We heartily approve the wisdom of the annexing of the Hawaiian islands, and we favor the retention by this government of all territory acquired by our army and navy where justice and humanity demand it. We favor the construction of the Nicaragua canal under the present administration, and the exclusive control of the United States government, the necessity for the canal having been more strongly emphasized by recent events.

We congratulate Governor Otero upon the success of his administration and commend him for his efforts in behalf of good government and the advancement of the material and financial interests of New Mexico, both at home and abroad, and we tender to the president of the United States our thanks for the appointment of a governor from the ranks of the people, a man who by reason of his lifetime residence in New Mexico, and of his intimate acquaintance with the needs of our people is best able to perform the duties of an executive in this territory.

We heartily endorse the present Republican administration in all of its branches. During the brief period in which the present executive has occupied the position he fills, New Mexico has attained a place in the hearts of the American people never before accorded. The present administration is sending forth a larger proportion of soldiers to the Spanish-American war than is credited to any other state or territory, and the bravery of our soldiers has placed the name of New Mexico in the annals of the American Union. We point with pride to the immortal record made by the New Mexican soldiers known as the "Rough Riders" in the battles of La Guasima and San Juan, by which was established the intelligence, patriotism and indomitable courage of our people, and where they have won for themselves the admiration of the civilized world, and tender to the relatives and friends of those who fell in the struggle for humanity, justice and our country, the heartfelt sympathies of a grateful people. We congratulate the nation on the return of peace, and heartily endorse President McKinley upon the peaceful and successful manner in which the dignity of this nation has been preserved in the war with Spain.

We congratulate the people of New Mexico upon the appointment by the president of the present able and fearless judiciary, and commend the members thereof for their devotion to duty and their unswerving interest in the administration of justice.

The present congress of the United States is Republican in politics, and any acts of that body favorable to New Mexico are Republican measures and cannot be credited to the efforts of a Democratic delegate from this territory.

The attitude of the Republican party of New Mexico has always been consistent on the question of the admission of the territory as a state. We favored the admission of the territory when the Democratic party was united in their opposition to its admission. We still favor its admission, believing that there is no good and substantial reason for keeping us out of the Union as a state and believe that our admission will be accomplished by the election of a delegate to congress who is in harmony with Republican politics and principles.

Our heartfelt gratitude is extended to the army and navy for their noble sacrifices in behalf of their country, and their brilliant achievements on land and water; and we emphasize our appreciation of the brave soldiers known as the "Rough Riders," to whose ranks our territory has so liberally contributed, and whose acts of bravery and heroism have inspired the world with a new alibi and confidence in American courage and valor.

We are in favor of increasing both our army and navy to a size commensurate with the interests of the country, thereby placing the nation in a position that will insure it a rightful influence and power among the nations of the earth. We believe in the expansion of American industry and commerce, and in the full protection of American citizens everywhere; wherever the American flag has been hoisted in the name of humanity and commerce, we believe it should stay until every vestige of despotism has been removed.
